DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim 1 is indefinite all of the steps of the process intended to be claimed are not clearly set forth because not all steps are actively recited but method claims should at least recite positive active steps to make clear what subject matter the claims encompass. *Ex parte Erlich*, 3 USPQ2d 1011. The examiner has identified the following "steps": "etching process" on line 2 including the steps of "are etched" on line 2, "then rinsed" and "being removed" on line 3, "is extracted" on line 5, "being recirculated", "renewed etching" and being contacted, on a retraction step" on lines 6 and 7, "passes" on line 7, "being recirculated" on line 8, "the re-extraction step to renewed extraction" on lines 8 and 9, the steps of passing online 9, "the re-extraction step" on line 10, "copper recovery" on lines 10 and 11, "diverting a flow" on line 11, "the operation for recovering copper" on lines 11 and 12 "recirculating said flow" on line 14 and "operation for electroplating printed boards" on line 15 but it is unclear that all

Application/Control Number: 09/913,938

Art Unit: 1742

theses expressions are intended to be steps if so then these steps should be clearly set forth.

In Claim 1 line 12 the expression "the same" is indefinite.

In Claim 5 the meaning of "closed process" is unclear.

In Claims 6, 7, 28 and 29 the meaning of "ratio" is not set forth

Claims 8 to 22 and 30 to 38 are indefinite because there is no antecedent basis forth "plating" so that the step of "pulse plating " cannot further limit what is not clearly claimed sinct a step of "plating" is not claimed in Claim 1.

Claim 23 recites the limitation "alkaline substance" and "organic material in lines 2 and 3. There is insufficient antecedent basis for this limitation in the claim. Also "the same" on line 4 of Claim 21 is indefinite

In Claims 22, 23 41 and 42 what does the expression "(-s)" mean?

Claim 24 and 43 recite the limitation "colloidal copper" in line 24. There is insufficient antecedent basis for this limitation in the claim.

In Claim 25 "extractors of the type" in indefinite. MPEP 2173.05 (c) E.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Reinhardt et al (US 4,252,621) disclose a process of re-generating an ammonical etching solution for etching printed circuit boards (col.1, lines 23 to 27), Oxley et al (US 5,705,048) disclose a process for re-generating an etchant (col.6, line 9 to col.8, line 13) and Martin et al (US 6,071,398) disclose a programmed pulse electroplating process to form a circuit board (col.4, lines 2 to 5) but the prior art do not

Application/Control Number: 09/913,938

Art Unit: 1742

disclose or suggest a method including a steps of diverting a flow of a copper containing

acid solution, adjusting a copper content of the solution and re-circulating the adjusted

flow to an operation for electroplating printed boards and forming printed boards by

electroplating.

Claims 1 to 43 would be allowable if rewritten or amended to overcome the

rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Melvyn J. Andrews whose telephone number is 703-

308-3739. The examiner can normally be reached on 8:00A.M. to 4:30 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Roy V King can be reached on 703-308-1146. The fax phone numbers for

the organization where this application or proceeding is assigned are 703-872-9310 for

regular communications and 703-872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is 703-308-

0651.
